

Dear Colleagues,

We are pleased to send you the first circular of the **“Nuclear Physics Underground and Beyond: LUNA winter meeting”**, which will be held on **January 28-30, 2026**, at **HUN-REN Atomki, Debrecen, Hungary**.

The workshop will present ultra-sensitive experiments that reveal scientific questions in the fields of astrophysics and nuclear astrophysics.

The event will be held in person at HUN-REN ATOMKI, Debrecen, Hungary. The open sessions of the workshop will be available online, also. The indico page of the workshop is available here:

<https://indico.atomki.hu/event/2/>

Access to the workshop is free, but the registration is required. The deadline of the registration is the **15th of January**.

Please feel free to share this email with your colleagues and, in particular, with any students or young postdocs who might be interested in participating.

Best regards,

The Local Organizing Committee

Chair: László Csedreki, HUN-REN ATOMKI, Hungary
Gábor Gyula Kiss, HUN-REN ATOMKI, Hungary
Maria Lugaro, HUN-REN CSFK, Hungary
Marcell Juhász, HUN-REN ATOMKI, Hungary
